

# *Big Race*

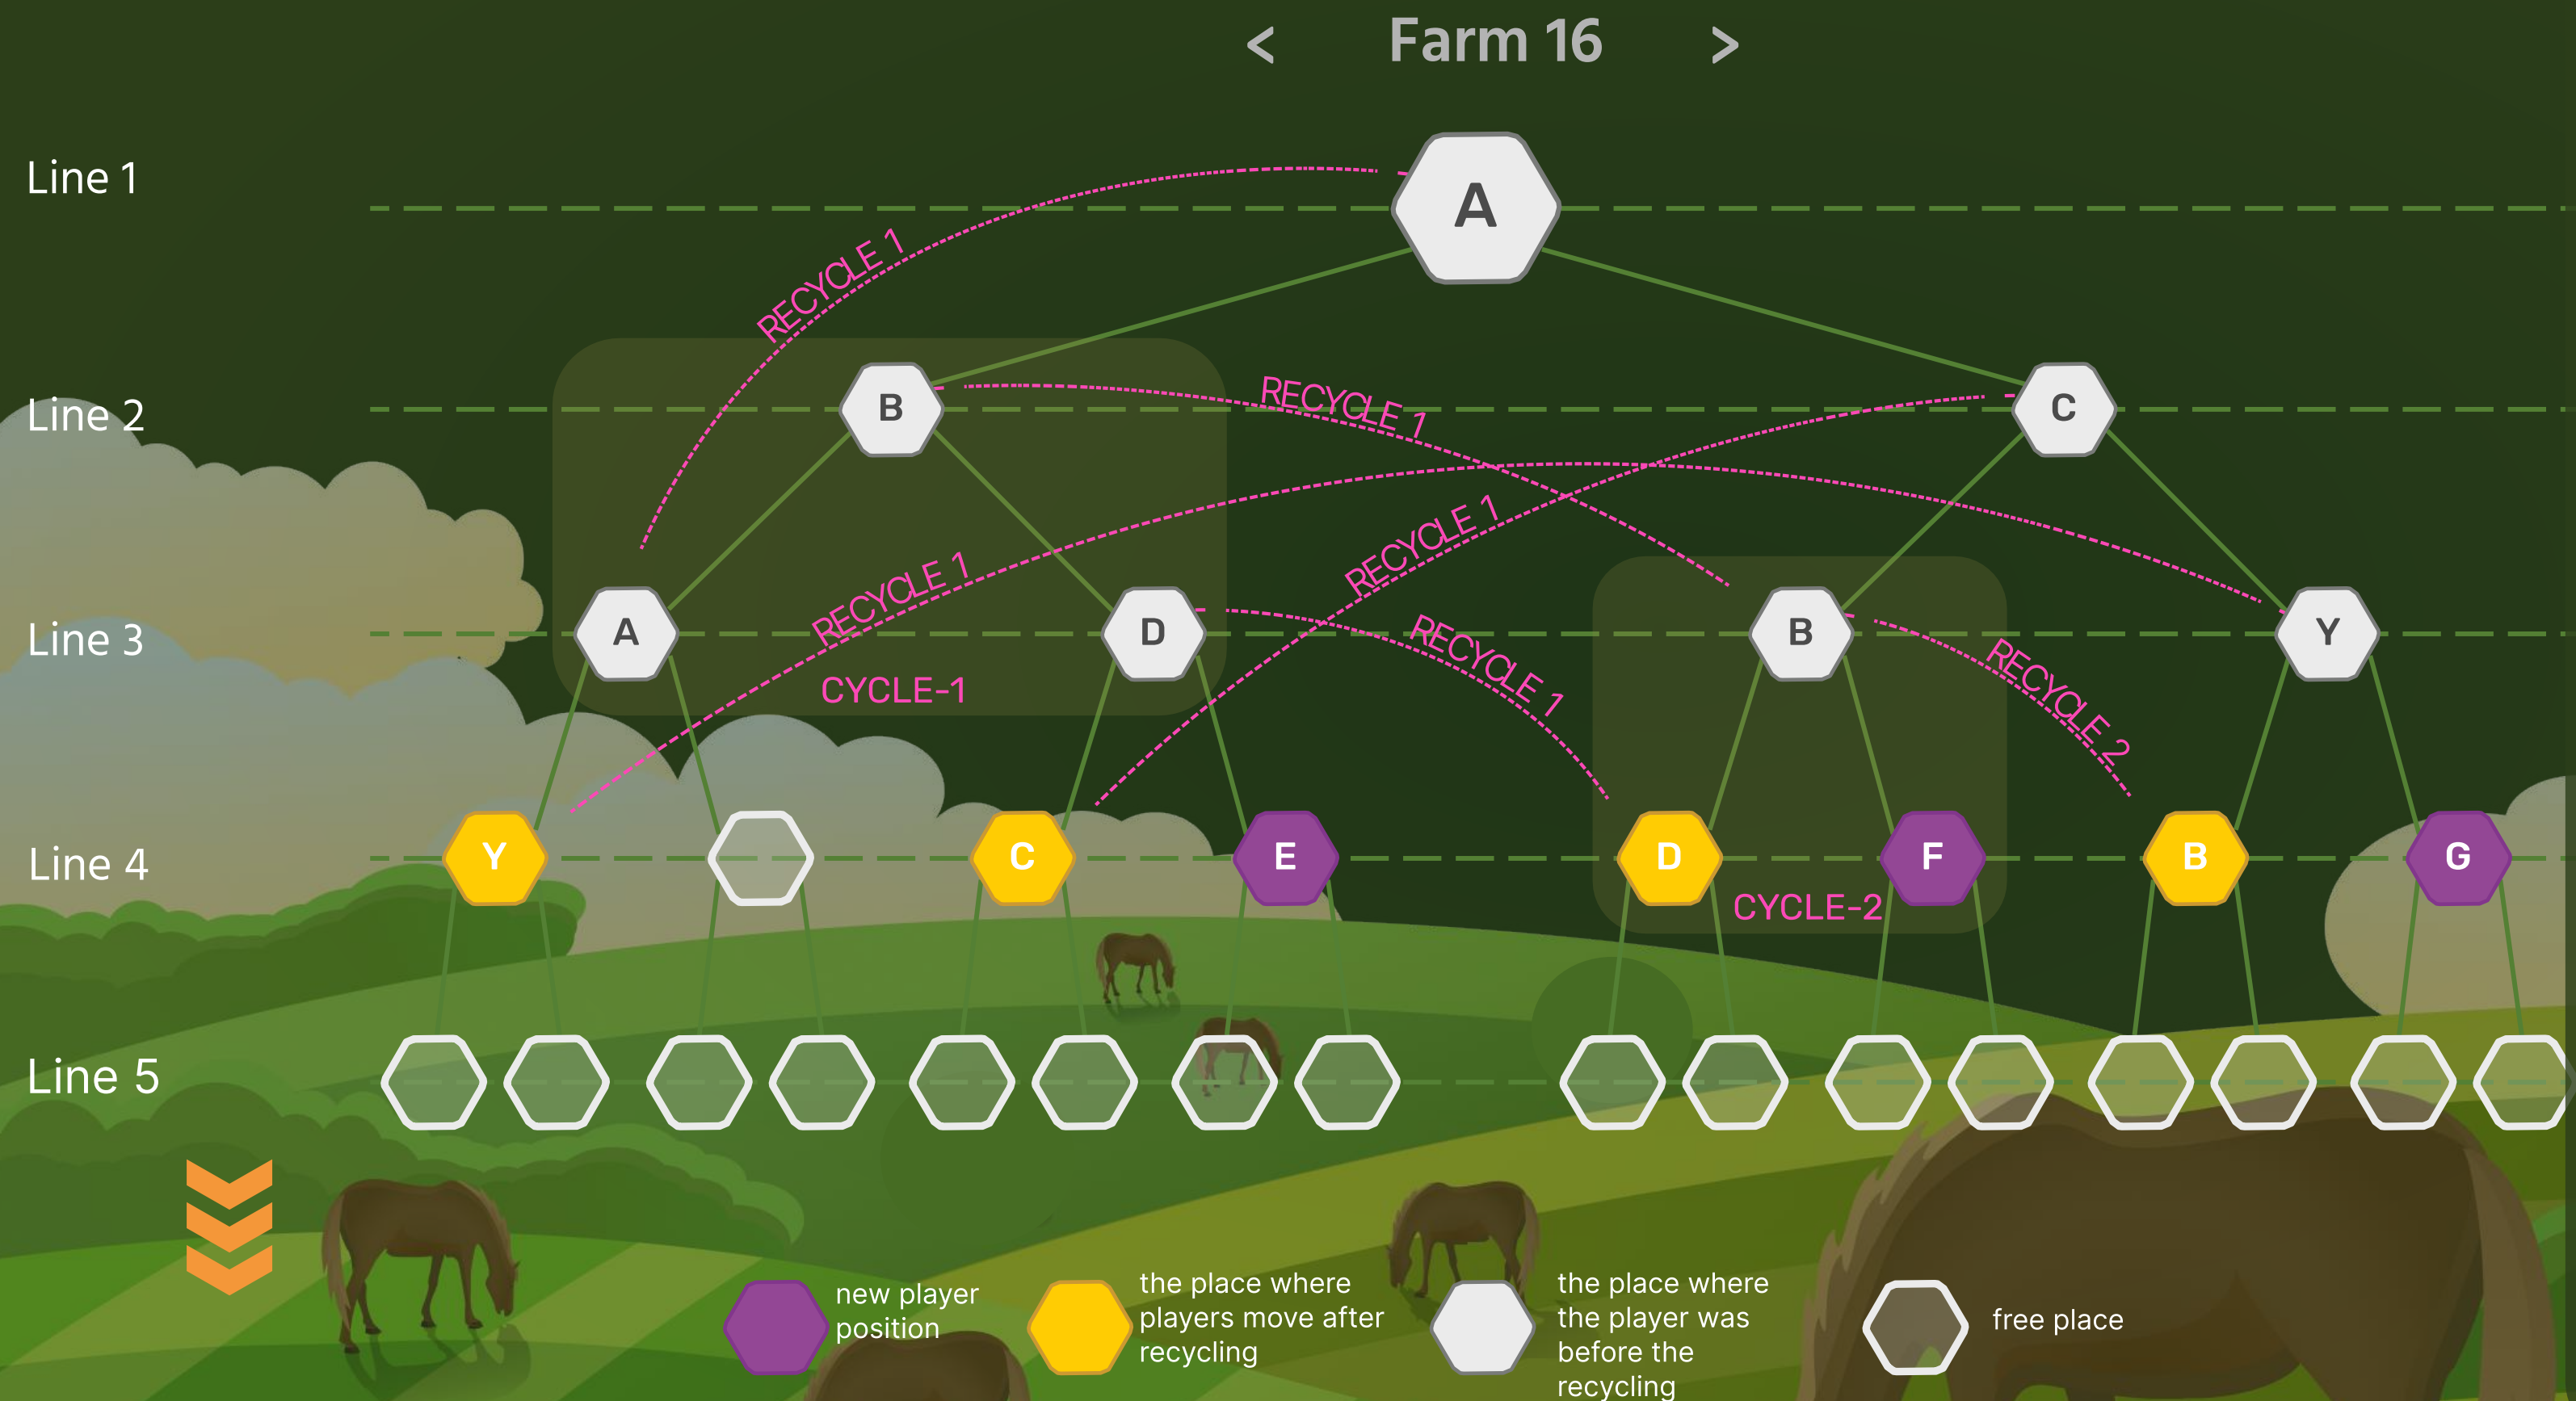

The “Big Race” game consists of 16 farms. Everyone can activate any of the farms already available. The farms gradually become available, opening sequentially from the 16th to the cheapest farm No.1. The farms open at specific time intervals.

Everyone can activate any number of farms and get their passive income. The earlier the participant entered the game, the more chances to get a quick passive income!

# Structure of each level

In Big Race, each farm is a separate structure that follows simple smart contract rules

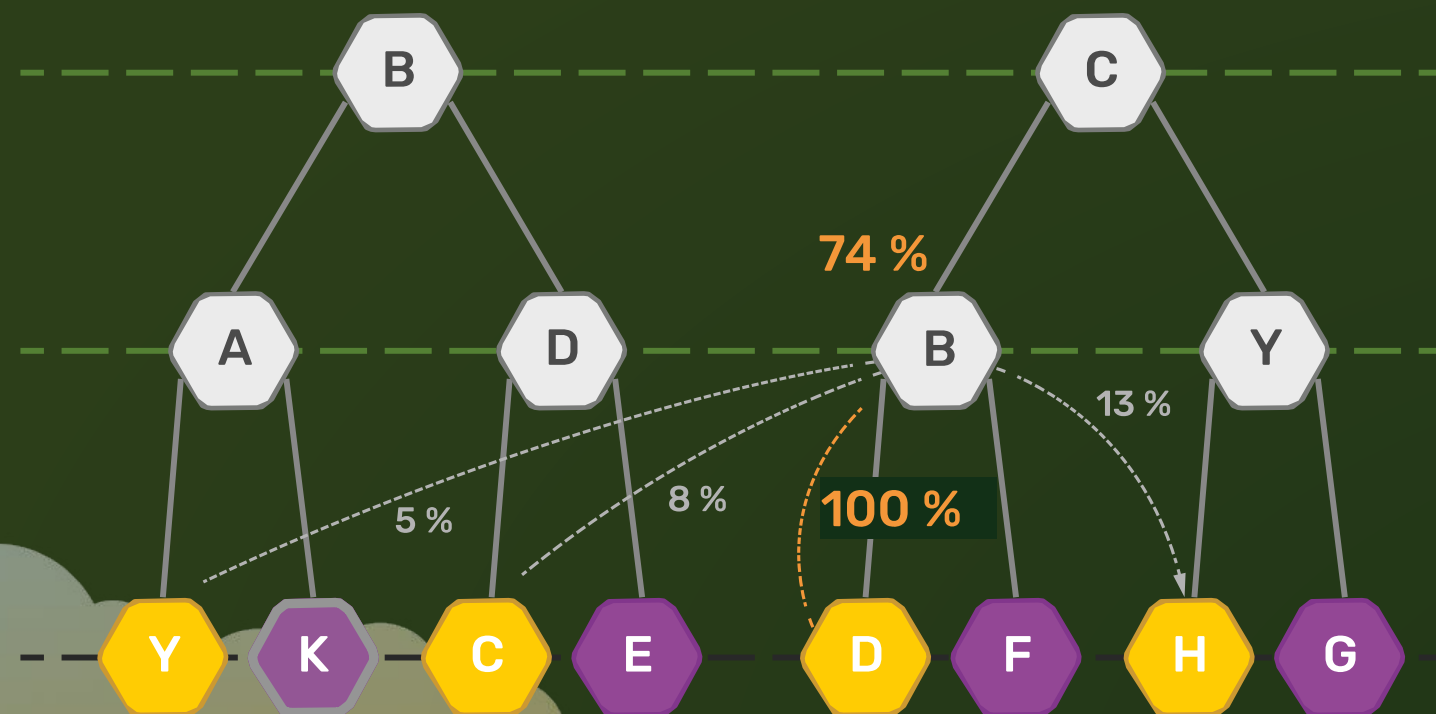

All new players are randomly placed in a single large structure on each farm, giving everyone an equal chance to earn rewards without having to invite personal partners.

Everyone chooses any available farm. By activating a farm, a participant automatically gets into a line with available seats. Free seats are allocated and assigned randomly by the smart contract.

A new player always takes the right seat in the cycle of another random participant.

When both seats in the cycle are occupied by players, you move to a new row below - this is a recycle. Then, this action is repeated as the activity moves on the level.

Each participant can take only one seat (their own cycle) on the line, after closing their cycle, the participant moves to the following lines below

Rewards in BNB are generated when new players activate farms.

100% OF THE ACTIVATION AMOUNT OF THE LEVEL IS DIVIDED INTO 4 PARTS: 74%, 13%, 8%, 5%

– these 4 parts from one transaction are immediately distributed to the wallets of the participants according to the rules of the game.

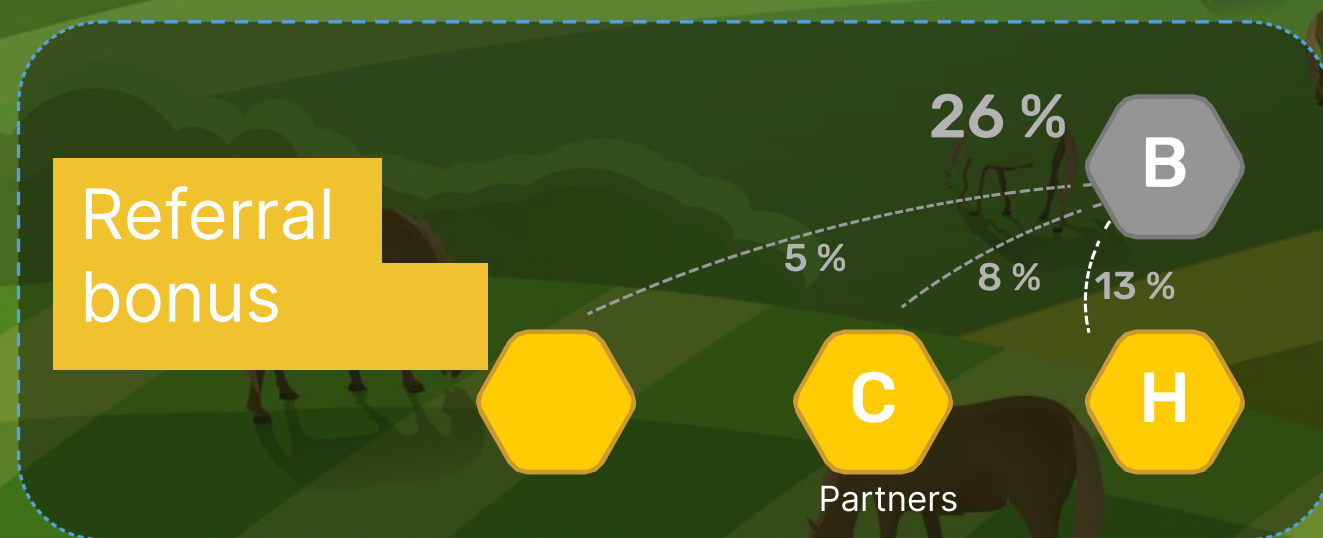

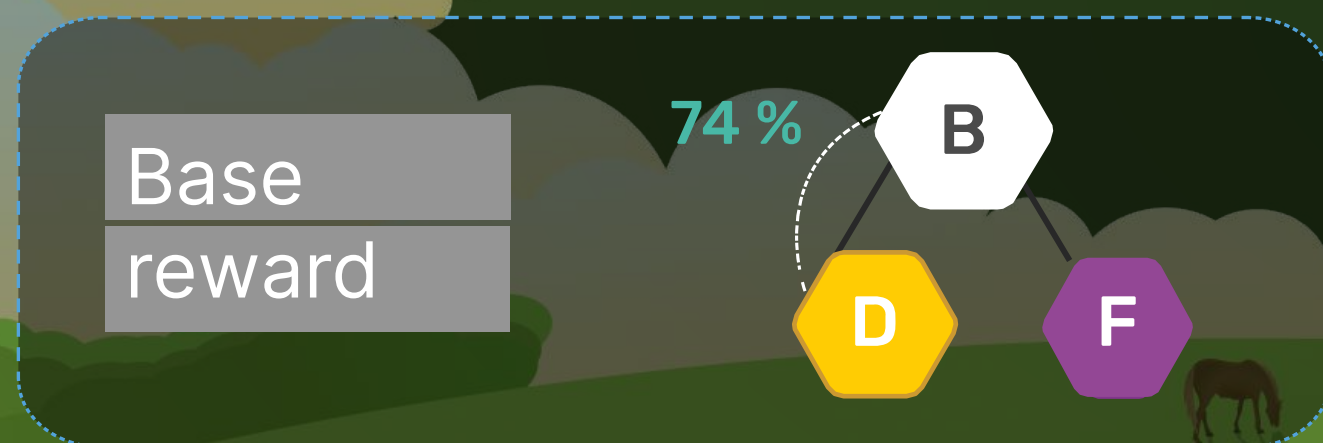

BASE REWARD – 74% goes to a random higher level participant in the tiered structure

REFERRAL BONUS – 26% divided between higher referral partners up to the 3rd affiliate upline.

1st higher farm gets 13%

2nd higher farm gets 8%

3rd higher farm gets 5%

Farm	Interval	Days	Price BNB
16	00:00	0	8
15	48:00	2nd	6,5
14		-	4,4
13		-	3,2
12	48:00	4th	2,2
11		-	1,6
10		-	1,1
9	72:00	8th	0,8
8		-	0,55
7		-	0,4
6		-	0,28
5		-	0,2
4	72:00	12th	0,14
3		-	0,1
2		-	0,07
1		-	0,05

Levels in Big Race open on a set schedule. Each next farm becomes available to everyone after a set period of time, ranging from 12 to 72 hours. One farm at a time, from highest to lowest. Each farm is structured differently, allowing you to earn income in parallel.

Farm start intervals:

- Farm 16** - available at GAME BEGINNING
- Farms 15-13** - every 48 hours consecutively
- Farms 12-10** - every 48 hours consecutively
- Farms 9-5** - every 72 hours consecutively
- Farms 4-1** - every 72 hours consecutively

On the 12th day after the start, all 16 farms will be available for activation.

Farms in the Big Race are activated in stages, starting with farm 16 at a price of 8 BNB. If you join the game when more than one or even all farms are available, you can choose any available farm to start and activate them in any sequence.

**IMPORTANT NOTE!** After completing the second cycle, the farm will be frozen unless a more expensive farm is activated. While the farm is frozen, all the income you are entitled to on the farm will be lost.

1. Go to <https://bigrace/> in your cryptocurrency wallet app on your smartphone or computer browser.
2. Click the “Connect wallet” button and confirm the connection of the wallet.
3. Choose from two wallets to connect.
4. Confirm activation of the selected wallet with a small amount and click “Activate”.
5. Confirm the transaction in your chosen wallet.
6. Your wallet is activated - you are automatically authorized in the game.
7. After activating your wallet, you can monitor the availability of new farms in Big Race, activate them, as well as view the results of activated farms.

Betting on horse racing has been done for over 300 years. Only the initiated know about the peculiarities of the sport in the world. Big Race offers you not only to bet on the selected horse, but also to take an active part in the competition racing horse.

The main features of participation in horse races.

The races last 30 minutes: 10 minutes to select a horse, 10 minutes to run, and 10 minutes to distribute the winnings to the winners.

- You can only select a horse once per race (0.5 BNB)

During the race, you can speed up your horse (by pressing the <speed up 0.01 BNB> button) which you bet on, and it will finish the race faster

Acceleration from 0,01 BNB

After the finish, the winnings are distributed between the winners according to the size of your contribution to the horse's acceleration.

- You can also organize teams and thus increase the chances that your horse will win.
